And Incentives and Cost Recovery for Such)	OF WAL-MART STORES
Programs)	EAST, LP

Pursuant to Rule 103-825 of the rules and regulations of the South Carolina Public Service Commission ("Commission"), Wal-Mart Stores East, LP ("Wal-Mart"), by its attorneys, respectfully requests that the Commission permit it to intervene and become a party in the above-captioned matter. In support of its Petition to Intervene, Wal-Mart represents to the Commission:

1. Wal-Mart is a national retailer of goods and services throughout the United States. Wal-Mart's principal office is at 2001 SE 10th Street, Bentonville AR 72716-0550.

2. Wal-Mart has the privilege of providing its retail services in the State of South Carolina. Wal-Mart has approximately 11 facilities in South Carolina that are served by Progress Energy Carolinas, Inc. ("Progress Energy"). Wal-Mart purchases more than 28,000,000 kWh annually from Progress Energy. These facilities include Wal-Mart Supercenters, Sam's Clubs and gas stations. In addition to being one of Progress Energy's large customers in South Carolina, Wal-Mart is a leader in energy efficiency and deployment of demand side management ("DSM") technology. For instance, in moving towards its goal of developing a store prototype that is 30 percent more efficient by next year, Wal-Mart is installing a variety of energy

efficiency measures and is auditing the results. These measures include: advanced meters (installed in approximately 700 facilities); daylight harvesting; highly efficient HVAC; white membrane roofs; heat reclamation from refrigeration equipment; T8 and LED lighting; and active dehumidification. Selecting from the most energy and cost efficient equipment employed in its trials, Wal-Mart's goal is to make its existing stores 20 percent more energy efficient by 2012

3. In this docket, Progress Energy requests that the Commission review its application to establish procedures to annually recover the costs incurred and incentives offered to provide and encourage new demand-side management and energy efficiency programs. The processing of Progress Energy's application has the potential to substantially impact the cost of electric service to Wal-Mart in South Carolina. Accordingly, Wal-Mart has a direct and substantial interest in the outcome of this proceeding, which cannot be adequately represented by any other party.

4. At this early stage in the proceeding, Wal-Mart has not fully determined its legal and policy position. Wal-Mart expects to present the testimony of witness Steve W. Chriss, who anticipates needing one hour to present his direct testimony.

5. The attorneys to represent Wal-Mart in this proceeding are:
